Important Information

- Prescriptions for medications to treat an acute condition, such as an infection, should be filled at your local participating retail pharmacy.
- You may only get medication amounts authorized by your doctor. For example, if your doctor writes your prescription for a 30-day supply with two refills, you will only receive one 30-day supply at a time. If your doctor writes a prescription for a 90-day supply with two refills, you will receive one 90-day supply at a time. Maximum days' supply is determined by your plan.
- Using FDA-approved generic medications instead of brand-name drugs can help reduce your out-of-pocket costs. In accordance with pharmacy law, a generic medication may be substituted for brand medication, unless your doctor indicates otherwise on the prescription. If you would like to receive the brand-name medication, please ask your doctor to write your prescription for brand only.
- In order for Aetna Rx Home Delivery to dispense Schedule II medications in any quantity greater than a 30-day supply, your doctor must write the diagnosis on the prescription. Some examples of Schedule II medications are Ritalin® (methamphetamine hcl), OxyContin® (oxycodone SR) and MS Contin® (morphine SR). Prescriptions for these medications cannot be phoned or faxed into our pharmacy. All controlled prescriptions must be signed by a physician.
- If you are taking a specialty medication, please contact Aetna Specialty Pharmacy toll free at 1-866-353-1892. If you are unsure if you are on a specialty medication, please visit www.AetnaSpecialtyRx.com for more information.
- We are unable to accept medications for return. If you have any questions about our order return policy, please call Customer Service.
